

6411 Series

Diaphragm Packless Lecture Bottle Valves

Sherwood's 6411 Series is designed specifically with corrosive gases in mind and with a durable construction for the specialty gases and gas mixtures used in laboratories.

- Proven leak-tight diaphragm seal
- Forged brass, aluminum silicon bronze and 303 stainless steel bodies withstand severe service conditions
- Low operating torque design ensures ease of operation during filling and use
- Available with standard CGA connections
