YEAR**
WARRANTY

You don't thrive for more than 100 years because you're lucky.

It takes quality products, constant innovation, and above all, a dedication to the customer.

From a pioneer in the development of regulators to a global leader delivering a comprehensive line of flow control products, RegO® has always kept our customers' interests first.

Quality matters. Industrial gas applications have no room for leaks. That's why we design, manufacture, and test 100% of our products, and can offer a 10-year warranty. RegO products work better and last longer.

Innovative products, processes and people. We invest in technology and training to deliver flow control products designed to reduce maintenance and replacement costs, and ensure an efficient, safe work flow.

When our customers thrive, we do too. Our experienced team can provide technical support and product assistance. We're here to help in any way, every day.

Products built with innovation and backed by global support

More than 550 employees

8 global manufacturing facilities

Field support offices worldwide—we can be on site quickly when you need technical assistance.

RegO® SK Advantage Series cryogenic globe valves: A better built valve, builds a better system.

Your customers depend on your equipment for safe, efficient and reliable cryogenic gas manufacturing, storage or delivery. To build a system that will meet these challenges, you need to start with quality components—products built for performance and built to last. Built from the industry-leading Goddard globe valve blueprint, the SK Advantage Series is packed full of RegO innovation to deliver years of low maintenance flow control.

Quality materials, innovation and long-lasting design

That's how we can offer a 10-year product warranty—double that of other companies.

Patented Ergonomic handwheel

Easy-to-turn ergonomic handwheel, for faster open/close

Requires less torque than other styles, increases safety and reduces repetitive motion stress

Less adjustment & maintenance

RegO Kold-Seal™ technology
Live loaded PTFE stem packing seals tighter to reduce loss

Up to 16% lighter than the competition

Robust, stainless steel design

Longer life, less maintenance, and safe, no waste operation

Innovative bonnet pressure release system
Instead of wasteful weep holes, the SK Advantage Series captures excess pressure in the Kold-Seal protected valve stem on open and then returns it to the system upon close.

Up to 39% greater Cv

RegO conical seat for faster fills and secure shutoff
Opens wider for exception flow rates
More contact area between the seat and the seal for a tighter seal than other technologies
Less chance of debris accumulation for less frequent service
Up to 15x more durable in heavily used valves

Fast, easy maintenance with single seat assembly

PCTFE material for best cryogenic performance
No washers and nuts to retain the seat. Less adjustment and fast, easy maintenance.
Reduced risk of components vibrating loose that could affect downstream equipment

Weld-in-place

No disassembly required to install into a system
Simply follow proper installation and welding procedures
Available in socket and butt weld configurations

CRYGENIC LIQUID & VAPOR SERVICE:

- OXYGEN
- NITROGEN
- ARGON
- CARBON DIOXIDE
- NITROUS OXIDE
- METHANE
- ETHANE
- ETHYLENE
- KRYPTON
- LNG

APPLICATIONS:

- BULK STORAGE TANKS
- MICRO BULK TANKS
- TRANSPORT TRAILERS
- PIPING

SK Advantage Series Long Stem Globe Valve Ordering Information
